Technical Skills

- **Frontend & UI**: React.js, React Native, HTML5, CSS3
- **Backend & Frameworks**: Node.js, Express.js
- **Database & Backend**: MongoDB, Mongoose
- **Architectures**: MVC (Model–View–Controller)
- **Developer Tools**: Git, Figma, Postman, Vercel
- **Concepts & Services**: REST APIs, JWT Authentication, OTP Login, Payment Gateway Integration
- **Languages**: English, Hindi, Gujarati

Project Experience

Rare Fashion Ecommercial App   *Jan - 2025*

- Built a full-featured online shopping platform using **React.js**, **Node.js**, **Express.js**, and **MongoDB**.
- Integrated **JWT** and OTP authentication for secure user login and **session management**.
- Developed **responsive** UI components with React.js, delivering a smooth user experience across devices.
- Implemented **Stripe** payment gateway for real-time transactions with webhook support for confirmation.
- Deployed production-ready frontend on **Vercel**, achieving fast loading times and high performance.
- *Live Demo*

Rare Fashion – Mobile App (React Native)   *May - 2025*

- Developed a **cross-platform** mobile app version of the Rare Fashion e-commerce platform for **Android** and **iOS**.
- Implemented secure OTP and JWT **authentication**, ensuring smooth and safe login flows.
- Integrated **local storage** for offline browsing and cached product data to improve load times.
- Designed a mobile-first UI with **React Native** components and optimized navigation using React Navigation.
- Used **Context API** for global state management, improving performance and reducing API calls.
